

Fresh brewed coffee 'at the touch of a button'

Why have we chosen Toddy coffee? Over the past 40 years, Toddy has produced signature coffee and tea for almost every national coffee chain in the U.S.

Imagine being able to serve a consistently fresh cup of steaming hot Coffee from an OFFICE WATER COOLER, anytime!

Palomar's revolutionary new office coffee service program, offers unprecedented quality, simplicity, convenience and taste – literally at the touch of a button.

What Critics Are Saying:

"(Toddy) cold-brewed coffee may just become a regular work habit, and not just because the always-overheated communal coffee pot fills me with dread"

- Jon Bonné, MSNBC

It's that easy: place a cup under the spout and dispense the desired amount using the hot coffee button.

Coffee strength can be adjusted at any time by simply turning the dial inside the refrigerated compartment, which can also be used to store creamers etc...

✓ **Palomar's OCS System** consistently delivers a better tasting cup of steaming hot coffee, as well as cold and hot water, on demand (using 3 and 5 gallon water containers).

✓ Aseptically packaged **one-gallon Bag-in-Box (BiB)** – ships and stores with dry goods (**up to 12 – months without refrigeration**).

✓ Each one-gallon BiB serves approximately **400 8-oz cups** of fresh brewed, specialty grade, Arabica coffee. Providing lower cost, less waste and better coffee for your customers.
